OLUWASEUN EMMANUEL OLOWOOKERE

FRONTEND ENGINEER

Ile-Ife, Nigeria · +234 816 735 1024 · olowookereoluwaseun25@gmail.com · LinkedIn · GitHub

PROFESSIONAL SUMMARY

Frontend Engineer with 3+ years of experience building scalable web applications across AI, fintech, healthcare, and edtech. Skilled in React, Next.js, and TypeScript with strong experience translating Figma designs into responsive, user-focused interfaces. Experienced in API integration, cross-functional collaboration, and deploying production applications on Azure Cloud. Best Graduating Student from Obafemi Awolowo University with a strong focus on clean, scalable product development.

CORE TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, React.js, Next.js, React Native, Node.js, Express.js

APIs & Data: REST APIs, Real-time APIs, Firebase, Supabase, Redux Toolkit, React Query

UI Libraries & Styling: Tailwind CSS, Chakra UI, ShadCN UI, Framer Motion, HTML5, CSS3

Tools & Methodologies: Git, GitHub, Azure Cloud, Vite, Postman, VS Code, Figma, Code Reviews, Mentoring, Agile Collaboration

PROFESSIONAL EXPERIENCE

Frontend Engineer · Cartolinks Solutions Limited

Sept. 2025 – Present | Remote

- Built and maintained AI features for Soloa AI, a multi-model platform serving 1,000+ users for image, video, and project generation.
- Improved frontend performance and API handling across complex AI workflows using Next.js.
- Translated Figma designs into responsive and production-ready interfaces with strong accessibility support.

Frontend Engineer · Vatebra Limited

June 2025 – Present | Victoria Island, Lagos (Remote)

- Engineered the EFCC Scholar Room Dashboard, a role-based learning management platform serving students, lecturers, section heads, and admins, streamlining onboarding workflows at scale.
- Built a multi-role therapy platform supporting therapists, clients, and organizations with secure virtual consultation features.
- Managed Azure Cloud deployments and production releases with minimal downtime.

Lead Frontend Developer · Petabyte Esports

June 2025 – Dec. 2025 | Abeokuta, Nigeria (Remote)

- Led frontend development for ATIRC, a platform connecting 500+ young Africans to jobs, internships, and innovation programs.
- Built scalable and responsive interfaces for esports and community-driven digital products.

Frontend Developer (Contract) · **Vynix Labs**
June 2025 – Sept. 2025 | Remote

- Collaborated on OpenTask and Sambha frontend projects in partnership with OnlyDust open-source initiatives.
- Maintained high code quality standards through structured GitHub collaboration workflows across distributed teams.

KEY PROJECTS

Soloa AI - Multi-Model AI Platform | Live Demo | *Next.Js, TypeScript, Tailwind, OpenRouter, Supabase, Zustand*

- Built UI features for an AI platform supporting 1,000+ users for image and video generation workflows
- Implemented responsive interfaces with real-time API integration and performance optimization.

ATIRC – Innovation & Incubation Platform | Live Demo | *React.Js, Rest APIs, TypeScript, Tailwind, RTK*

- Built frontend features for a youth-focused innovation and incubation platform supporting education, research, and tech empowerment initiatives.
- Developed responsive interfaces for dashboards and programs aimed at connecting users to learning, incubation, and opportunity workflows

VatNova - AI-Powered Customer Support Platform | Live Demo | *React.Js, Rest APIs, TypeScript, Tailwind, RTK*

- Built UI features for an AI platform supporting 1,000+ users for image and video generation workflows
- Implemented responsive interfaces with real-time API integration and performance optimization.

EFCC Scholar Room - Learning Management System | Live Demo | *React.Js, JavaScript, Tailwind, Redux Toolkit*

- Built UI features for an AI platform supporting 1,000+ users for image and video generation workflows
- Implemented responsive interfaces with real-time API integration and performance optimization.

Home of Design Furniture - E-Commerce Platform | GitHub | Live Demo | *React.Js, TypeScript, Tailwind, RTK*

- Built a full-featured furniture e-commerce platform with authentication, dynamic product catalogue, cart system, and checkout flow.
- Integrated Firebase authentication and Stripe payment testing while ensuring responsive and smooth user experience across devices

EDUCATION

B.Sc. Engineering Physics · Obafemi Awolowo University, Ile-Ife, Nigeria
Graduated August 2023 · **CGPA: 4.12 / 5.00** · 🏆 Best Graduating Student (2023) · Best 300-Level Student (2021)

CERTIFICATIONS

- Complete React Course — Dave Gray (Sept. 2024): React Hooks, Context API, REST APIs, routing, reusable components
- Complete Web Development Bootcamp — Jonas Schmedtmann (Nov. 2022): HTML, CSS, JavaScript, Git, modern web practices
- CSS, Bootstrap & JavaScript — Proper Dot Institute (Jan. 2022): CSS frameworks and JavaScript fundamentals
